

The Clinton County Floodplain Ordinance requires that any development in a mapped floodplain first obtain necessary permits from the Illinois Department of Natural Resources, United States Army Corp of Engineers, and the Illinois Environmental Protection Agency. Obtain the “Joint Permit Application Form” at _____.

Assuming State and Federal permits are obtained, additional conditions must be met in order to obtain the local Clinton County Permit. Check on Floodplain Development Permit for a printable copy.

In addition to the information required on the application, you should attach copies and/or waivers from the Illinois Department of Natural Resources, Army Corp of Engineers and Illinois Environmental Protection Agency.

All new structures/additions or substantially improved buildings must be elevated one foot above the base flood elevation and require an elevation certificate upon completion.
