Hi Larry,

To follow up our conversation at the recent "special meeting" on the afternoon of Monday, February 25th, we obtained "rate proposals" from other dental insurance carriers, specifically MetLife.

The MetLife rates are:
\$29.27 - employee only
\$82.77 - employee plus dependent(s)

As mentioned at the meeting, the Delta Dental renewal rates are:
\$34.72 - employee only
\$104.15 - employee plus dependent(s)

The approximate monthly total premium would be \$5,712 with MetLife and \$7,152 with Delta Dental.

The coverages are very similar as both pay 100% for the "preventive" exams twice per year (after the \$50 calendar year deductible).

However, with dental insurance it is very difficult to compare
