STANDARDS FOR VARIANCES (40-9-26)

The Board of Appeals shall not grant any variance unless, based upon the evidence presented to them, they determine:

- (A) The proposed variance is consistent with the general purpose of this Code (**See Section 40-1-1**); and
- (B) Strict application of the district requirements would result in great practical difficulties or hardship to the applicant, and prevent a reasonable return on the property; and
- (C) The proposed variance is the minimum deviation from such requirements that will alleviate the difficulties/hardship, and allow a reasonable return on the property; and
- (D) The plight of the applicant is due to circumstances not of his own making; and
- (E) The circumstances engendering the variance request are peculiar and not applicable to other property within the district, and therefore, that a variance would be a more appropriate remedy than an amendment (rezoning);
- (F) The variance, if granted, will not alter the essential character of the area where the premises in question are located nor materially frustrate implementation of the County Comprehensive Plan.
